

EXERCISE NAME: EHPC Regional Functional Exercise (FE)				LANE: DISCIPLINE TARGET		Exercise Control callsign: RCC East VIPER EVENT TG HOTEL 3	
Target Capability: Operational Communications		Master Scenario Events List (MSEL)					
Instructions: Fill out your name and agency on the sheet appropriate for your discipline. If you are FIRE/EMS/LAW/PSAP, complete the PUBLIC SAFETY sheet (tab). If you are healthcare (Hospital, Public Health or Community Health Center), please complete the tasks to the best of your ability in order. If you are unable to complete the task, document why. Tasks not completed may indicate a gap across the region or state. When you are done with all tasks, submit your paperwork and complete the hotwash evaluation found at: https://nc.readyop.com/fs/4dNt/dba4117b							
NAME:				AGENCY:			
BEGIN AND END EACH RADIO TRANSMISSION WITH "THIS IS AN EXERCISE".							
	Targets:	Task	Task Clarification/Explanation	Start Time	End Time	Notes/Answers	
Sample	HOSPITALS	Using any method possible, determine what is located at: 40.7127° N, -74.0134° W	Determines if the participant / agency is able to look up GPS coordinates	10:00	10:02	The location is One World Trade Center Complex	
1	What is this inject targeting	What the task (inject) is asking you to do or accomplish	Explanation on why we are asking you to do this or additional information	When did the task start	When did you finish	Provide your answer if requested here	
END							

Sample of what the task sheet looks like and explanation

Prepared By (Communications Unit) EX CONTROL					Incident Location - NC County PITT State NC Latitude Longitude				

The convention calls for frequency lists to show four digits after the decimal place, followed by either an “N” or a “W”, depending on whether the frequency is narrow or wide band. Mode refers to either “A” or “D” indicating analog or digital (e.g. Project 25) or “M” indicating mixed mode. All channels are shown as if programmed in a control station, mobile or portable radio. Repeater and base stations must be programmed with the Rx and Tx reversed.

EXERCISE NAME: EHPC Regional Functional Exercise (FE) Target Capability: Operational Communications		Master Scenario Events List (MSEL)		LANE: USCG SECTOR NC		Exercise Control callsign: RCC East VIPER EVENT TG HOTEL 3
Scenario: You are assigned on a USCG boat station, shallow water team or aviation resource. A CAT3 hurricane is inbound and is expected to make landfall over the next few hours. You are in the final stages of testing and preparing equipment for anticipated interoperability needs. Complete the tasks to the best of your ability. PLEASE ENSURE YOU IDENTIFY YOURSELF ON ALL TRAFFIC AND INCLUDE "THIS IS AN EXERCISE" ON ANY MESSAGES. YOUR CALLSIGN IS THE AGENCY YOU ARE REPRESENTING. PLEASE ENSURE YOUR NAME AND AGENCY IS COMPLETED BELOW						
If you need assistance - email COMMEXPUBLICSAFETY@gmail.com (All email is coming to one address for this exercise)						
Exercise Webpage is https://subsplash.com/easternhealthcareprepare/media/ms/+xkh5nfj						
NAME:			AGENCY:			
BEGIN AND END EACH RADIO TRANSMISSION WITH "THIS IS AN EXERCISE".						
TASK #	Targets:	Task	Task Clarification/Explanation	Start Time	End Time	Notes/Answers (Feel free to delete email link if not needed)
Sample	HOSPITALS	Using any method possible, determine what is located at: 40.7127° N, -74.0134° W	Determines if the participant / agency is able to look up GPS coordinates	10:00	10:02	The location is One World Trade Center Complex
1	SECTOR/AIRSTA	Contact AIRSTA Ecity on VIPER (USCG AIR) and conduct a radio check. Document if the test was successful in the notes section on this page.	Ensures VIPER is working between Sector and AIRSTA. Also if AIRSTA is monitoring at ODO desk. If unsuccessful, recommend calling ODO desk to work out any gaps.			
2	SECTOR/AIRSTA	Contact Regional Coordination Center East (RCCEast) on VIPER State Event Hotel 3 and conduct a radio check. Document outcome in the notes section on this page.	This ensures a seamless link is open from USCG Sector to NCEM RCCE in Kinston, separate from commercial infrastructure.			
3	BOAT STA	Have boat stations contact Regional Coordination Center East (RCCEast) on VIPER State Event Hotel 3 and conduct a radio check. Document outcome in the notes section on this page.	This is a radio navigation drill and ensures boat stations know how to navigate channels/zones in radio and can interop with local/state.			
4	SECTOR	Contact ECU Health Medical Center (Pitt-Greenville) and conduct a radio check. Their callsign is "E-Comm"	Should be programmed in Sector VIPER base radio. If unable to find in template- Hint- Should be in HOSP zone			
5	SECTOR/AIRSTA	Contact the North Carolina Emergency Operations Center (Raleigh) on the VIPER "NCEOC" talkgroup and conduct a radio check.	This ensures a seamless path to the State EOC in the event RCCE is damaged/displaced. EOC channel is monitored 24x7x365.			

6	ALL	Monitor VIPER State Event Hotel 3 for the next 30 minutes. Contact RCCEast via telephone @ 252-214-5968 and advise them you are monitoring. RCCEast will assign selected stations to hail USCG Sector for a radio check.	If this impacts Sector ops, the base radio can remain on home channel and use a portable for the 30 min timeframe of monitoring. Attempt will be made to have coastal STAs make contact with Sector.			
END OF EXERCISE - ENSURE EVALUATION IS COMPLETED https://nc.readyop.com/fs/4dNt/dba4117b
